TRAIN YOUR HAIR AS AN ACTRESS DOES.

No class of people devotes as much time to beauty as do actresses, and no class must be more careful to retain and develop their charms. Inquiry develops the information that in hair care they find it dangerous to shampoo with any makeshift hair cream. The safety of any hair to have the best hair wash and scalp stimulant at a cost of about three cents, one need only get a package of canthrox from your druggist; dissolve a teaspoonful in a cup of hot water and your shampoo is ready. This makes enough shampoo liquid to apply to it to all the hair instead of just the top of the head. After use the hair dries rapidly, with uniform color. Dandruff, excess oil and itching are quickly and entirely disappear when you rinse the hair. After this your hair will be so fluffy it will look much heavier than it is. Its luster and softness will delight you, while the stimulated scalp gains the health which insures hair growth.

The long waistline continues to hold its popularity. The charm of this line is beautifully expressed in this wedding gown of ivory white charmeuse and lace. The bodice is cut like a long waisted jumper, with a deep "U" shaped opening and large armholes, to display a vest and sleeves of soft shadow lace. A tunic of this lace falls from beneath the blouse in straight lines. Beneath the tunic appears a narrow draped skirt of ivory charmeuse. A broad band of pearl embroidery borders the edges. The deep armholes are outlined with satin-covered buttons. The long train is made of ivory satin. The gown is also very effective without a train. The veil, which is made of net, is held by a band of orange blossoms.
